

Mascot designer tender

Together for Taekwondo Foundation announce a mascot designer tender.

Subject of the tender: 2024 HUNGARIAN OPEN TAEKWONDO CHAMPIONSHIP

Requirements of the mascot:

The aim of the tender is to create a mascot which truly shows the values of Together for Taekwondo Foundation. We aim to create a friendly, motivating yet martial figure which can be an important part for everybody in the world of taekwondo regardless of their age.

The winning creation will appear on the social media of the Foundation and it will be presented on the Hungarian Open Taekwondo Championship live on the 18th May, 2024.

Background:

The Together for Taekwondo Foundation was formed in order to support the underprivileged young taekwondo athletes with the power of sport and also in order to promote the type of martial art it represents as well as to promote the Olympic sports in Hungary.

As founding members of the Foundation we have two major goals. Firstly, we wish to support those children who do not have the financial background to show off their excellence and talents on an international competition.

Lots of young talents do not reach the adult league because they lack the financial support to get there. Secondly, our aim is to promote TAEKWONDO. Besides the fact that it is an Olympic sport, it is also martial art.

All in all, we wish to pass something on about everything this fantastic sport community already gave us. Something about all those values that are needed in all aspects of life. We hope that many will join us along our way so we will reach our goals better together.

Requirements of the tender:

Form of appearance: The form of appearance is unrestricted, therefore we welcome every idea. We can accept the plan of the mascot in an A4 handmade artwork and also in a graphic artwork made by computer.

The tender is open to everybody. One applicant can submit a maximum of 3 artworks. We also would like to receive a short description explaining why this mascot suits the best to our Foundation.
